ACKNOWLEDGEMENT

This book brings together the history of the Texas School for the Deaf football team. When I was asked to gather information for Art Kruger for his book, I was not able to locate some simple facts. My search led to one thing and another. I went to meet old-timers like Jack Hensley, Ruth Seeger, and others. It occurred to me that a book ought be made to document the history, especially for the 100th anniversary this year, 1988. I decided to continue gathering all data I could get, but they were not easy to find. It was necessary for me to go all over Austin to find data.

I am grateful to everyone who provided documents and pictures for inclusion in this book. And, the Texas School for the Deaf Alumni Association provided several old team pictures. The Athletic Department kept post-1947 team pictures that have been copied and put in together later in this book.

My right hand man was Richard Norton. I honestly do not believe I could have made this project a reality without his input and suggestions. His experience in the media area and on computer has been invaluable. Well done, Richard.

I want to thank our executive director, Mr. Marvin Sallop, for his support of this book and permission to have it printed by the school's print shop. James Kallina is to be commended for his excellence in printing this. Thanks go to the Athletic Director Walt Camenisch for his full support and encouragement of my research. And, I would like to show my appreciation to Joan Champie for editing my notes. A special thank you to Sheila Penick for her work on the logo. There may be others that I have overlooked, but this book would not have been made without all of you.

I hope this book will be useful for future reference and updated when necessary. It is sad to see something lost to dust and never shared with others. Should there be some mistakes or additional information, PLEASE send corrections or new information with verification to the T.S.D. Athletic Department.

Let's preserve our mighty football history!

FOREWORD

Football and baseball teams at schools for the Deaf in the country and Gallaudet University around the turn of the century are enshrined in legend, truths, and half-truths. Beyond all doubt the athletic glory at these schools was at its zenith during this era, but in narrating history, it is necessary to stick to records still available.

Apparently, baseball was the only maojr sport at schools for the Deaf. It was inangurated in the 1870s. Football became a major sport toward the end of the 19th century.

I was a sports writer/editor for fifty years and I would say that the schools for the Deaf as a whole play fine football, because their boys are especially fond of that sport. They have the termerity to challenge hearing elevens, which have a weight advantage of between 15 and 25 pounds to the man, and beat many of those teams. The Deaf lads, as one puts it, seem to have a natural aptitude for taking hard bumps and feeling no ill effects.

Bob Westermann, who established the first football team at the Model Secondary School for the Deaf on the campus of Gallaudet University in 1977, said the Deafcan do just about everything in sports, but they play football the best.

Naturally, I am please to see this program book "History of Football at Texas School for the Deaf." This is a MUST and I hope that every school for the Deaf in the country having a football team will write one in the future. As far as I know two program books have been published similar to this one.

North Carolina School for the Deaf at Morganton was the first school to publish a program book celebrating its 50th year of high school football during the 1976 season. It all began with a 38-0 loss to University of North Carolina at Chapel Hill which occurred in 1900. Simple arithmetic makes it 78 years instead of 50, but there is a reason - there was a period in the early1900s when football was dropped, and records weren't kept until the 1926 season. That is why N.C.S.D. celebrated 50 years of organized football.

In the fall of 1985, Illinois School for the Deaf at Jacksonville issued its "Centennial Football Anniversary Program Book." Football was brought to I.S.D. in the fall of 1885 by the Rev. Phillip J. Hasentab, when he had come to the school as a teacher from Gallaudet University, thus gaining the distinction of being among the first to introduce football to the Midwest.

And Tennessee School for the Deaf at Knoxville published a book, entitled "The T.S.D. Athletic Almanac, 1892-1980". It was compiled by E, Conley Akin and edited by Troy E. Haydon, Athletic Director and Supervising Teacher of Health and Physical Education Department at the school. It is composed of lists, games results, records and other items of all sports and can be used as an information and reference book. Possibly it is the most complete record of athletics at Tennessee School for the Deaf.

Having been a sports writer for fifty years, I still have not forgotten the 1947 T.S.D. football team, and I still consider it as the greatest deaf prep eleven of all time. Under the able direction of Coach Jesse Hawthorne, the amazing T.S.D. Silents went through the '47 campaign undefeated and untied, with a top-heavy total of 516 points to 13 for the opposition in nine games; therefore, they were accorded the accolade of National Deaf Prep Champions. The 516 total is still a national deaf prep record, and probably the nation's highest score for a high school team of all time. This team was led by national deaf prep scoring leader and national deaf prep football player of the year, Lee Montez, who is still considered as one of the all-time greats in deaf prep football.

With deepest gratitude to the man responsible for this program book, one of the most dedicated persons that I know, TOM WITHROW, Jr., let's all share in the rich history of T.S.D. Football.

TEXAS SCHOOL for the DEAF
FOOTBALL CENTENNIAL

The whistles blow, the game begins at kickoff time,
As hundreds watch, an oval ball wheels through the sky,
Supporters roar with hopes their team is in prime,
One hundred years of football aimed to break a tie;

Sharp cleats grab turf to power on a swift offense,
pass plays arc over lines all set to crush and maul,
Tough linemen tide into their backs with rush defense,
So they in turn, forcing fourth down, can have the ball;

Cheerleaders swing and flare bright poms to rouse the crowd,
While refs dash in and out to start and end each play,
While players tackle, run and block, their fans rise proud,
They recreate with snacks and drinks - yell loud their say!

When games are done, none win nor lose what 's lost or won,
But all the same, fans like the feeling - they had fun!

HISTORICAL STORIES

T.S.D. FOOTBALL HISTORY - 1888 to PRESENT

Football was born on T.S.D. ground in October 1888. A group of twenty boys who were getting tired of baseball, which had been around ever since the foundation of the school, decided to chip in a nickel from their own pockets to purchase a brand new football. There were no records or any writings on football before that time nor afterwards for the next five years. In 1893, in the school paper *The Texas Mute Rangers*, there was mention of serious consideration of forming an organized football team for the boys. Possibly there were some football activities during the five year span. The lack of record on such activities may be due to the attitude of the school at that time, as there had been some messages that physical activities were evil and very damaging to mental and spiritual growth. Also, there ought be no play, but just study and work.

In 1894 the boys were exposed to organized football around the town at the University of Texas, St. Edward's University, and High School (Austin High School). The boys made a petition to set up an organized football team at school. Superintendent Kendall turned it down. A week after Superintendent A.T. Rose replaced his predecessor, the petition was granted. First documented football schedule appeared in 1894, a three game schedule. The Deaf and Dumb team won all three games. From 1895 to 1898, the team was called the Roses after the school Superintendent, A.T. Rose.

At the turn of the century, the football team had a hard time finding teams, for there were not many teams available. Thus, they had to play the Y.M.C.A., colleges and universities. The Deaf and Dumb boys had played teams such as Texas A & M, Baylor, University of Texas, University of Dallas and St. Edward's University. O.G. Carrell was probably the first deaf coach for the school after graduating from Gallaudet University and playing for the D and D in 1900. It was not until 1904 that T.S.D. finally played other high schools than the High School (presently Austin High). The San Marcos Academy and T.S.D. played twice that year, splitting the victories, beginning the rivalry between the football teams.

T.S.D. football kept up with new ideas, as they started passing the football in 1908. Forward passing was introduced only two years before in 1906. In 1910, the team was called the Lone Stars for the first time. From the beginning to 1920, there had been problems with the coaching staff; almost every year a new coach showed up, mostly with no football experience. There were times when the captain of the football team had to send out a message to be printed in the local column in *The Lone Star* begging for someone to come forth and coach the team. However, they continued having teams and did fairly well.

First football match against a deaf team took place in 1920 against the Houston Deaf Boys' Club, and the Lone Stars won easily by a score of 55 to 0. First T.S.D. alumnus to return to his alma mater and coach the gridders was Robert Sutherland in 1921. Entering the 1920's, a better system was established with the school paying closer attention to who is coaching. Not until 1927 did the T.S.D. football team become powerful and fearsome, and that has continued to the present. The Oklahoma School for the Deaf had the honor of being the first team from a deaf school to challenge T.S.D. The game ended in the Silents' favor, 13 to 0.

The mid-1930's brought some weak records, as the depression forced some boys to leave school for work. The Golden Era had truly begun by 1941, when the winning streak lasted nine seasons and the team won many championships, including four national titles and five southwestern regional titles. The 1947 team especially rolled up a massive 516 points to a mere 13 opponent points.

The school applied for membership with the Texas Interscholastic League (T.I.L). It was turned down due to overaged players. The winning season streak ended in 1950 and bounced back to traditional winning seasons for 10 consecutive seasons from 1952 to 1961. In 1951, the school again was turned down in its application for membership to the T.I.L. on grounds of lack of age limitation and grade system.

The Boys' Athletic Association and Girls' Athletic Association were founded in 1953. They have been generous to the football teams in many ways: fund raising for stadium lights, bleachers, scoreboard, and many other things. The B.A.A. changed the team name from the Silents to the Rangers in 1953. The second series of 'Golden Era' years were under a single coach, Raymond Butler. This era brought one national title in 1957, and probably should have brought one more in 1960 when the team won eight games and had only one loss from the close play-off game against Sacred Heart, 20-19.

The Coca-Cola Bottling Company donated a new manual scoreboard in 1957, but the B.A.A. and P.T.A. wanted an electronically operated scoreboard. They raised funds and got one installed after two years with the manual scoreboard. Entering the 1960's era, there had been some difficulties as the enrollment and number of players were below par. By late 1960's, the football team brieflycame back to respectable status . A football game was played on T.S.D. ground for the first time in 1967, under brand new stadium lights funded by several organizations

By 1972, the Rangers returned to power and did wonders for four years. Having narrowly won the national titles in 1973 and 1975, the 1973 and 1975 teams failed to secure their rights to the titles with only two losses against 17 victories between these teams. After many years of applying for membership to University Interscholastic League (U.I.L.), T.S.D. finally was admitted in 1974. They fared well in the first two seasons. During their third season as a member, there came the worst era in the history of T.S.D. football. The school had six losing seasons in seven years from 1976 to 1982.

The year of 1982 was the T.S.D. Athletic Booster Club's birthyear. The Rangers team joined the Texas Association of Private Schools (T.A.P.S.) in 1984 and returned to its old self once again. During the early 1980's, there had been some noticeable rise in status with the football team's record as it was in the 1940's and 1950's. The idea of using a drum to aid the offensive unit to respond to the snap simultaneously was introduced in 1986. The year of 1986 brought back the national title to the school's name after a 30 year drought. The team won 10 games, the third school for the deaf ever to accomplish this feat, against one big loss coming from a playoff game.

In 1987, the Coca-Cola Bottling Co. installed another scoreboard but an electronically operated one this time. The year 1988 will mark the 100th anniversary of Texas School for the Deaf football history. The T.S.D. Alumni Association sent out questionnaires and got a full approval to name the Rangers' Football Field after great Rudolph Gamblin for his excellence as a player and especially as a coach. He won three national titles from 1941 to 1943. In 1988, for the first time in history, a football team will fly to Washington, D.C. to play the powerful Model Secondary School for the Deaf Eagles.

EARLY YEARS - RAW YEARS

During the early years, the game of football was in its infancy in terms of rules, age limit, eligibility, and many other things that have become very important issues nowadays.

The scoring system has been changed several times. It is essential to get familiar with the scoring system historically, so we may understand the scores over the years. During the 1890's, a field goal would bring five points while a touchdown was worth a mere two points with the extra points being four points. And, the safety cost one point. In 1897, the touchdown was awarded five points with the extra point worth one point. The five point field goal was lowered to four points in 1904. It was reduced again to three points in 1909, the same as today's field goal. During 1912, the five points for a touchdown had increased to six points. The last and final change in the scoring system was made in 1958 when they allowed two points for the extra point after a touchdown made by either running or passing. So, this explains the strange, baseball-like scores such as 6-5 and 11-5.

The rules for referees and umpires were inconsistent from 1890's through 1930's. There had been many disputes that could not be solved. The home team had power in determining the rules. The visitors had to comply with the home team. There were even times when umpires and referees got into fights over disagreements. The length of the game was greatly varied; the teams had to meet and determine the length of the game and minutes per quarter. Sometimes, the first and fourth quarters were played for ten minutes while the second and third lasted twelve or fifteen minutes.

An age limit did not exist in the primitive years. There have been some writings about several players being out of school for several years and then returning to school. They were allowed to play regardless of their ages. In fact, it was said that one of the coaches during the mid-1940's stepped on the field with his own players and played football. In other instances, a former player returned to T.S.D. and played football after playing football for Gallaudet University for a couple of years. It was not until the early 1950's that an age regulation was set to prevent any needless injuries to younger and inexperienced players.

In relation to the age limitation, again, the eligibility was flexible. In many instances, a player had been playing for at least 5 or 6 years. Interestingly, it was found that as the regulations were added, a good number of 'large boys' or overage boys left school. Please do not discredit those years, for if it were not for them, we would probably not be having the great sport we are seeing today.

As we can see how the game has changed over the years of competition, we are still trying to modify the game, with better techniques, training, weight-lifting, and so forth. In the years ahead, we may bring the same point of view towards our game today as we have looking at our past.

TEXAS SCHOOL FOR THE DEAF MASCOT NAME

The T.S.D. football team in 1894 was called simply TEXAS SCHOOL FOR THE DEAF. From 1895 to 1898, it was labeled the 'ROSES', named after the school superintendent, A.T. Rose.

After Superintendent A.T. Rose resigned in 1899, the T.S.D. football team was called 'DEAF and DUMB'. At that time the school was called Texas School for the DEAF and DUMB during the turn of century.

Prior to the 1910's, several names had been used when talking about the T.S.D. football squad. They were 'DEAF and DUMB', 'DUMMIES', 'SCRUBS', and 'DEAF MUTES'. From 1910 to 1920, the team was called 'LONE STARS'.

It is unclear why the 'SCRUBS' was used. However, whenever the name was used, it was connected to the second team. It may have meant a junior team. But, again, as noted several times in *The Lone Star*, the first team usually consisted of only the first 11 players and the second team, the second 11 players. It was assumed that the second team may have been part of the varsity team. Sometimes, there were games set up for the second teams only. One way or another, they were called by these names above.

After years of various names being used, the 'SILENTS' was accepted by the media and all interested parties. There was not any document that indicated the football squad was called other than the 'SILENTS' post-1920's. The 'SILENTS' remained from 1921 to 1953, when the name was changed to 'RANGERS' which has remained to the present.

> "At a recent meeting of newly established Boys' Athletic Association, one of the first official acts of that body was to adopt a name to replace the 'Silents'. Great pains were taken to choose a name that would be easily recognized as "Texan" in origin and at the same time easily drawn for illustration purposes. The great and glorious fame of The Texas Rangers furnished a very appealing name which was immediately found favorable by the large majority of the students."
>
> *by Ray Butler: The Lone Star vol. 75 no. 2*

After it was carried in the voting, the newspaper and other interested parties were informed of the change. The name was welcomed immediately and warmly.

'RANGERS' has been used affectionately by students and faculty alike. There have been a large number of various illustrations of the RANGER; it appears to be here to stay!

ALL-AMERICANS, COACH OF THE YEAR, & NATIONAL TITLES

Selections for the All-Americans, Coach of the Year and National Championship among schools for the Deaf began in 1936 with a sports writer named Art Kruger. He was a one-man show. The All-Americans selection was to honor football players who earned recognition for their playing and contributions to the sport. The Coach of the Year was to honor a head coach for leadership and role modeling. Art Kruger checked several sources to determine the selection of All-Americans and Coach of the Year, and to name a National Championship team.

Texas School for the Deaf has produced a full list of All-Americans, one Coach of the year (Rudolph Gamblin, a three time winner from 1941 through 1943), and six National titles.

Below are the years of National titles, and the names of All-Americans and their positions.

HOMECOMING QUEEN AND GAME

The Homecoming Event is one of the most important events for the football team. It was formed to celebrate the football team, and, later, to honor the chosen Queen. Homecoming may have been held for the first time in 1926. First Homecoming Game against a school for the deaf was against equally strong Kansas School for the Deaf in 1930. This game ended in a tie, 0 - 0. The Homecoming Games had been on and off prior to 1945's, but in 1946, the Game became an annual event. The overall record was 26 victories against 12 losses and one tie. We were victorious against Schools for the Deaf with this impressive record - 17 wins, 2 losses and 1 tie.

Prior to 1948, there had not been a Homecoming Queen, but there was a Field Queen after a campus-wide vote to choose the Queen during the Field Day in late springtime. In 1948, the football team decided to start a tradition by picking the most popular girl to be the Football Sweetheart. Dorothy Krystiniak won the honor. A year later, the name 'Football Sweetheart' was changed to 'Homecoming Queen' which continues to today. The first official Homecoming Queen honor went to Mary Ann Pekar.

The following pages will list the Homecoming Queens, including the Football Sweetheart, and results of the Homecoming Games.

T.S.D. AND UNIVERSITY INTERSCHOLASTIC LEAGUE

Texas School for the Deaf football team, as well as other school sports, had sought membership with the University Interscholastic League since the 1940's. In 1948 and again in 1951, the Texas Interscholastic League (as it was named then) turned down the school's application on grounds that the school did not have an established grade class system and age limitation. Not until 1974 did they finally admit the school. It was determined that the school would be classified as a 2AA team according to the enrollment at the school. In 1978, the Rangers were moved up to 3AAA due to an increased enrollment. This marked the most disastrous era in the history of Texas School for the Deaf football; from 1978 to 1981 they won only once in 40 games. When the school was reassigned back to 2AA, the gridiron team fared well, winning four games against five losses. In 1984, the University Interscholastic League decided to put the school back to division 3AAA. The athletic department appealed the decision on grounds that the enrollment included multi-handicapped and over-age students. At that moment, there were 35 such students. The school decided to avoid another era of a no win-situation by leaving the UIL and joined Texas Association of Private Schools in 1984. Ever since, the T.S.D. sports program has been competitive with other teams of similiar size and level of competition.

STADIUM LIGHTS

The below was printed in *The Lone Star*: 1967 vol. 89 no. 1. It was inspiring to see how a group of people got together and set a goal and accomplished it, though it took years of fund-raising. May this be taken as an example of teamwork and patience.

> "This effort is significant in that a great group of people working together successfully in bringing to realization a facility which will serve the needs of the students of the school for years to come. It is especially significant that it was conceived and successfully carried out without the aid of public appropriations."
>
> *Mr. John F. Grace, Director of Special schools*

The fund raising drive was first set up with an initial contribution of $300 from the Parent-Teacher Association and $200 from the Boys' Athletic Association in 1959, plus $400 from the outstanding balance from purchasing an electronic scoreboard. After the head start from the above, other contributors were actively involved; they were senior classes; Girls' Athletic Association; Houston Booster Club; Houston Endowment, Inc.; South Austin Exchange Club; Les Sourdes Study Club; and many parents and staff members. The fund-raising reached the purchasing price of the six stadium light posts containing 96 light bulbs - $11,363. It was done over six years of hard work.

The T.S.D. football team played under the brand new stadium lights for the first time on September 29, 1967. The Rangers were victorious over Kyle, 28 to 0.

DRUM

On the way back home from the scrimmage against Milano on August 22, 1986, the coaches were discussing the scrimmage; they concluded that the offensive unit was not responding to the snap as well as the defensive unit. Coach Walt Camenisch was listening to his assistant coaches for the solution. Assistant coach Tom Withrow suggested a drastic change in the face of T.S.D. football history: bring in the 'DRUM'.

The purpose of using the drum was to bring similar responses from all offensive players at the snap. The quarterback determines the count of the beat from the drum after receiving play calling from Coach Walt Camenisch. When all players are lined up, the quarterback puts his hands under the center. At this very moment, the drummer begins drumming. He always beats the drum four times. The count determined by the quarterback is between 0 to 4. It changes all the time to keep the opponents playing honestly.

This brilliant idea was used by the Gallaudet University football team and a few other schools: Maryland School for the Deaf, California School for the Deaf, Model Secondary School for the Deaf, American School for the Deaf.

As an interesting note, during the two-year use of the drum, it brought a record of 17 wins and 4 losses for the varsity team while the junior varsity tallied 11 victories against no losses and 3 ties. More impressive, the national title was won during its debut year.
